

# Corporate Fact Sheet

## Corporate Overview

Founded in 2001, Driven has become a leader in data management and eDiscovery by its ability to overcome the challenges of working with large and complex data sources. As a technology company, Driven is able to engineer creative solutions to challenges not addressed by existing software products. With a focus on maximizing efficiency, flexibility, scalability, and automation in eDiscovery, Driven leverages best-of-breed technology to reduce the cost and risk associated with large data volumes. Driven's unique solutions enable law firms and corporations to interface with one provider for data management through eDiscovery.

As a unique hybrid of a technology, services, and consulting company, Driven brings world-class expertise to the entire data lifecycle. Assistance from an experienced user may be just what is needed to leverage technology in the most efficient and effective way for your project. Led by attorneys with Fortune 100 and AMLAW 100 backgrounds, Driven's service teams are available to advise on best practices for defensibility, efficiency, and cost predictability. Driven's consulting team can assist clients in all areas of data management, litigation readiness, and eDiscovery.

## Driven Teams Enhance Customer Support

Even the best tools and services may not meet your needs if they are not coupled with guidance from someone who has been in your position. Assistance from an experienced user may be just what is needed to leverage those tools in the most efficient and effective way for your project.

Led by experienced eDiscovery attorneys, Driven's service teams are available to advise on best practices for defensibility and efficiency throughout every phase of data management and eDiscovery.

## Consulting

Driven's team of expert attorneys, many of whom with Fortune 100 and AMLAW 100 backgrounds, can assist clients in all areas of data management, eDiscovery, and process refinement. Their vertical expertise spans a vast number of disciplines, and they can provide "C-Suite"-level communication on many areas of the law, including: Mergers & Acquisitions (M&A), Structured Data, Energy, Investigations, Banking, etc.

## Project Management and Litigation Support Services

Driven's support teams are available 24/7/365, so clients are never without assistance. Certified team members (Relativity, ONE, PMP, CAAT) offer their expertise to manage all data lifecycle phases, budgets, deadlines and compliances. If clients are already involved in litigation, Driven's experienced attorneys and certified staff can provide consultative support to assist with data management and eDiscovery issues.

## Managed Review

Driven's Managed Review team integrates the full power of the technology offering with expert attorney reviewers. This maximizes the efficiency of the entire review process, and enables cost predictability, a streamlined workflow, deadline compliance and the most accurate document review. Our services include:

- Fixed-fee attorney staffing
- Assistance in drafting an efficient review protocol that includes background of case
- Tagging protocols
- Explanation of case-specific substantive issues highlighting best practices
- Implementation of QC controls created in conjunction with the Review Protocol
- Provision of document review facilities and project management in a variety of jurisdictions
- Provision of daily data review metrics
- Facilitation of communication among reviewers, counsel and client in most efficient way possible

## Software Solutions

Driven offers Brainspace, ONE Discovery and Relativity for data management and eDiscovery:

## Technology Partners

Driven leverages the technology of industry leading partners to deliver its end to end platform globally. These are some of the partners we currently work with:
